

CHESTER ARCHAEOLOGICAL SOCIETY COMMENTS ON PROPOSED MOLLINGTON STUDENT VILLAGE (APPLICATION 12/00400/FUL)

The Society fully supports the comments expressed by the Conservation Area Advisory Panel.

We would like to see the preservation of the Green Belt and the natural landscape, which has historical significance. This is highlighted in the archaeological report, where there is concern about the recognition of the historic parish boundary. The Second World War Spigot Mortar Emplacement has no context in a built up area.
