

MOEL ARTHUR EXCAVATION 30 JULY - 10 AUGUST 2018

Opportunity to join the excavation team!

The excavation organised by the Clwydian Range Archaeology Group (CRAG) is well under way, and early results look interesting as we follow up ring-shaped anomalies from the geo-physical survey.

If you have the odd day- or half day- to spare between 30 July and 10 August and would like to join us, you would be very welcome.

Experience is not necessary but the climb up to Moel Arthur is fairly steep and the site is rather exposed although the views- and the archaeology- compensate.

If you are interested please contact us for further details by email or phone.

Hilary Lidbury

CRAG Secretary
