

### **Chester Archaeological Society Tour of Liverpool Old Dock on Monday 15 July 2019**

*The construction of Liverpool Old Dock in the early 1700s was a considerable feat of engineering. The cost nearly bankrupted Liverpool Corporation but the risk paid off in the expansion of the port. From 2001 Oxford Archaeology North led excavation ahead of the development of Liverpool One.*

*We will meet at the reception desk of Merseyside Maritime Museum at Royal Albert Dock ready to start the tour at 12 noon. It will last about an hour. There is no charge for the tour itself but a voluntary collection will be made at the end. The route taken is suitable for wheelchair users. There is parking nearby and good public transport links.*

*Members interested in taking part should contact Hilary Lidbury for further information.*
